

Ways to Coach Your Math Partner

Teaching One Moore

1. Sit knee to knee or shoulder to shoulder with your partner.
 2. Partner #1, put your work in the middle. Partner #2, put your work beside you.
 3. Partner #1, point to your work and explain what you did step by step.
("First, I ..., Next, I ..., Then, I ..., Last, I ...")
 4. Partner #1, ask your partner to restate or retell what you just said.
"Can you repeat what I just said?"
 5. Partner 2, make a comment about something you noticed your partner did or ask them a question.
(Example: Tell me why you decided to ____).
- Partner #2, point and explain what you did to your partner.
Repeat all the steps listed above.

I like the way

you

— .

Explain to me
why you
decided to
_____.

Your strategy is
similar to mine
because we both
_____.

I used a different
approach, I _____
instead of _____.

Explain to me
how your
matches the
problem.
